

## What Does the Clinic Offer?

This clinic can treat: sprains, strains and rashes (NOT work-related), colds, flu, sore throats, allergies, insect bites, sinus issues, and upset stomach. We can check for strep throat and urinary tract infections.

Prescriptions may be filled in between Doctor's visits.

### Preventive Services Include:

- \*Blood Pressure Checks
- \*Blood Sugar Checks
- \*EKG's
- \*Tetanus vaccinations
- \*Women's Annual Gynecological exams (Pap smears with no previous abnormalities)
  
- \*Specialized Counseling
- \*Weight / Diet Management
- \*Diabetes Education
- \*Smoking Cessation Classes Available
  
- \*Annual Blood Work:
  - Cholesterol
  - Blood Sugars & A1C
  - Thyroid Levels
  - Kidney Function
  - Liver Function
  - Specialized testing as ordered by your doctor

If your doctor writes an order for blood work, bring the order to the clinic (or have them fax it to us), make an appointment to have your blood drawn, and it will be sent by courier to LabCorp. Results can be faxed to your doctor once we receive them.

## Referral Services Include:

- \*Referral to a new family doctor
- \*Make referrals for specialists
- \*X-rays
- \*Mammograms
- \*Assist in making appointments to see family doctor

## Patient Education Room:

Handouts, brochures, and pamphlets with additional free information are available on various topics of interest. Come check it out!
